

ConstructAI: Project Insights

Risk Analysis

Description:

Risk analysis helps identify potential delays and hazards in the project. The graph shows the completion percentage and risk level for each task.

Risk Analysis

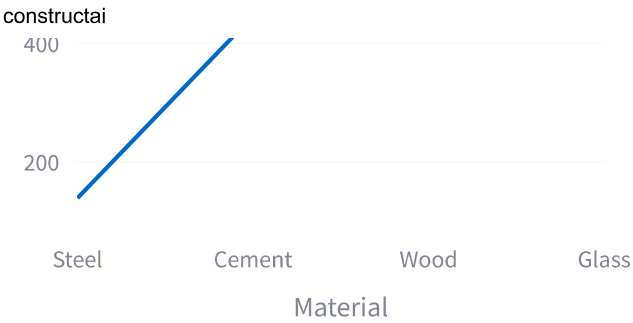

Supply Chain Resilience

Description:

Supply chain resilience ensures timely delivery of materials. The graph shows the cost and delivery time for each material.

Supply Chain Cost

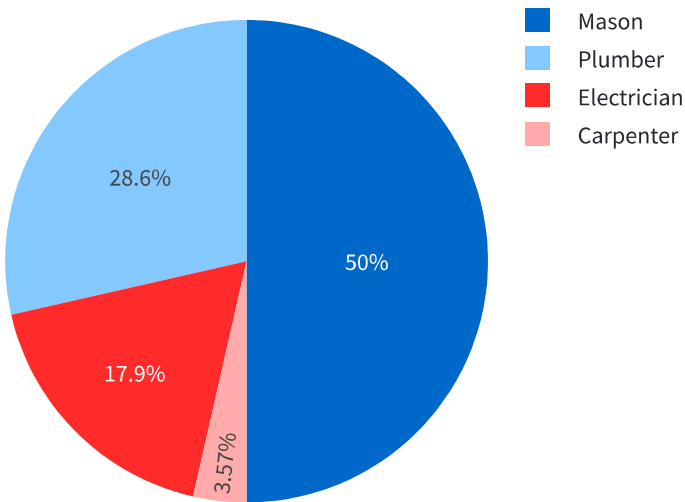

Workforce Optimization

Description:

Workforce optimization ensures efficient allocation of labor. The pie chart shows the distribution of workers by skill.

Workforce Distribution

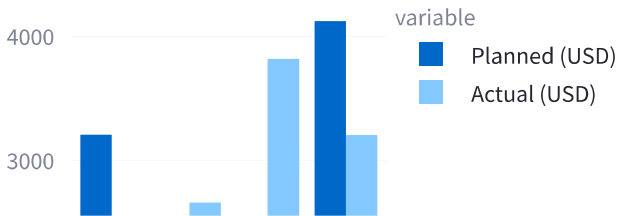

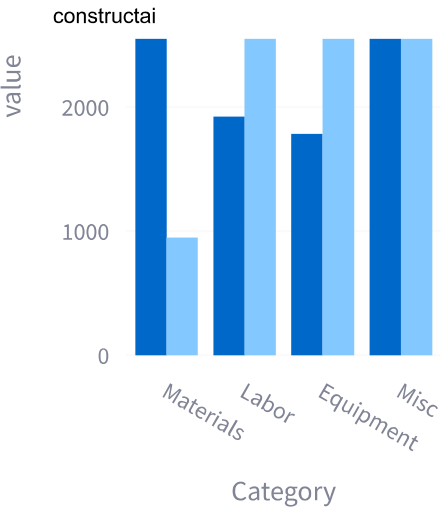

Budget Tracking

Description:

Budget tracking helps monitor project expenses. The bar chart compares planned vs. actual costs.

Budget Tracking

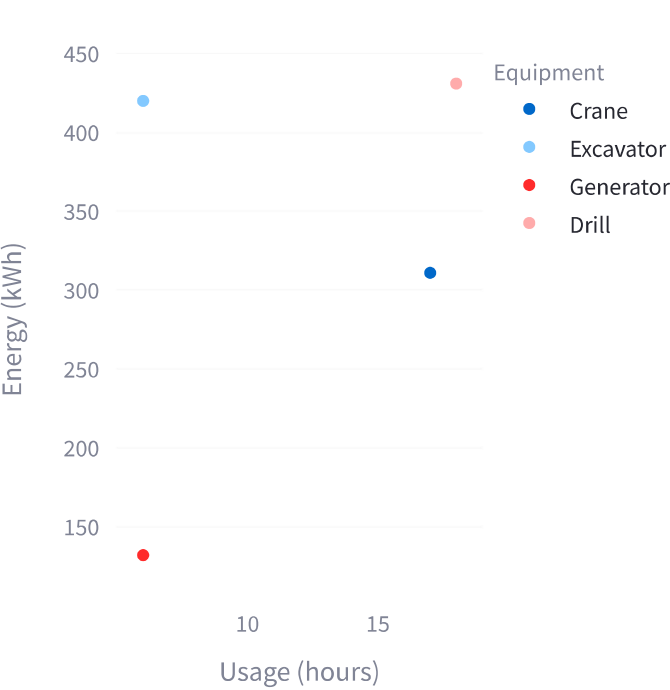

Energy Consumption Monitoring

Description:

Energy consumption monitoring helps reduce costs. The scatter plot shows energy usage by equipment.

Energy Usage
